

Overview

Establishment of the Water and Electricity Company

The Cabinet's decision No. (494) dated 5/8/1438 AH was issued to expand the company's scope of work as the principal buyer of desalinated, treated, and untreated water with the right to sell it, in addition to dual production

Launching the Identity of the Saudi Water Partnership

The company's strategy has been updated to meet the needs of future projects, with the addition of strategic storage projects, transmission lines, and collection networks, as well as providing consulting services that include infrastructure development, project design, and project execution management

2003

The decision of the Higher Economic Council No. (23/5) dated 23/3/1423 AH was issued to establish the Water and Electricity Company as a joint venture between the Saudi Electricity Company and the Saline Water Conversion Corporation

2017

Expanding the Company's Scope of Work

2019

The Minister of Environment, Water, and Agriculture launched the new identity of the company, "Saudi Water Partnership Company," and developed its five-year strategic plan to enhance water supplies in a competitive manner, increase local content, and encourage private sector participation

2024

Updating the Strategy to Expand the Scope of Future Projects
